CALS Curriculum Committee Meeting
March 25, 2014

Present: Jackson, Bland, Van Eyck, Barak, Olson, Gonsiska, Gisler, Sottile

Absent: Smith, Fritsch, Steele, Day, Jull

Meeting start time: 12:05pm

MINUTES

• Motion to approve minutes from Feb. 25: Kloppenburg, Olson – passed

COURSE PROPOSALS

• Agronomy 771 “Experimental Designs”
  o Change in pre-requisites to drop Stats 572 as a pre-req
• Agronomy 772 “Applications in ANOVA”
  o Change in pre-requisites to drop Stats 572 as a pre-req
  o Motion to approve both 771 and 772: Barak, Bland – passed
• Biochemistry 917 “Regulation of Gene Expression (Advanced Seminar)”
  o Currently taught as a non-credit course; want to formalize the course and offer as a 1 credit class.
  o Motion to approve: Kloppenburg, Olson – passed
  o Discussion:
    ▪ What’s the breaking point for an “S” or “U” grading? Suggest the instructor includes clarification in the syllabus and clarifies what qualifies as “participation.”
• Chemistry 626 “Genomic Science”
  o Course change. Add a cross-listing with Genetics. Also changed the description. The cross-listing and description will make the course more visible and accessible to students outside of Chemistry and clarify what the course is about.
  o Motion to approve: Bland, Van Eyck – passed
• Horticulture 234 “Ornamental Plants”
  o New course in response to constraints on teaching capacity. Class will replace 232 (2 cr.) and 233 (2 cr.); course material from those courses will be condensed and taught in 234 (3 cr.) during Fall semester.
  o Motion to approve: Olson, Bland – passed
• Horticulture 232 “Herbaceous Ornamental Plants I”
  o Discontinue course
• Horticulture 233 “Herbaceous Ornamental Plants II”
  o Discontinue course
  o Motion to approve both 232 and 233: Bland, Kloppenburg – passed
• Journalism and Mass Communication 601 “Undergraduate Colloquium in Professional Communication Careers”
  o New course out of L&S. CALS is included because of LSC. Course gives students a “buffet” exposure to the types of jobs available to them with their degree. LSC signature is supplemental, but not required. LSC has signed off on the course. There is not a grading scale in the syllabus.
  o Motion to provide supplemental approval: Van Eyck, Bland – passed
• Kinesiology 525 “Nutrition in Physical Activity and Health”
  o New course. To be cross-listed with Nutritional Sciences. Fills a gap that currently exists regarding nutrition being linked to exercise. Pre-requisite to be accepted into the Kinesiology program. Inconsistency with course pre-reqs between course proposal and syllabus.
  o Motion to approve: Bland, Van Eyck – passed
  o Discussion:
    ▪ Suggest instructor includes a grading scale in syllabus and be consistent with course pre-reqs
• Gen Bus 310
  o Change pre-req from Junior or Senior standing to Sophomore standing. Course was created by the Business School for CALS students. CALS is supplemental support only.
  o Motion to support the course change: Bland, Van Eyck – passed

Meeting adjourned 12:43pm
